Filled with easy-to-follow instructions and valuable tips, this new guide breaks the entire process down into 7 Keys to Success: \* Find a Topic \* Look It Up \* Take Notes \* Outline Your Paper \* Create Your First Draft \* Revise and Edit Your Draft \* Present Your Paper So take a deep breath, relax-and get ready to write a top-notch research paper! We have attempted to present clear and complete step-by-step instructions for the writing of a research paper and to give models for all necessary research forms. Our arrangement outlines each step in the research process and puts all information concerning each step in the process together in the same section; everything about bibliography is in one section; all information about footnotes is in another, and so on. Having taught the techniques of the research paper for many years, we have often felt the need for such a book as this one. We have attempted to write in such a way that the instructions will be simple enough for the high school student and yet complete enough for the graduate student. The experience research writers should be able to profit from the suggested and the numerous models for correct form. Consists of a description of a multitude of imagery techniques that have been grouped into four categories: hypno-behavioral, cognitive-behavioral, psychodynamic/humanistic and humanistic/transpersonal.
